CLOUD HOSTING FOR YOUR MANGO SOFTWARE

SECURE DATA ON THE ROAD AND IN THE OFFICE

- ✓ Access data from your office or remotely on the go
- ✓ Adapt to your business needs with flexible storage options

HIGH SECURITY AND RELIABILITY

Easily store all your data in a SAS II, SOC 2 compliant data center for added security.

MANGO SUITE COMPATIBLE

Works with optional modules such as Mango File, Mapping, Live, Web and more.

ARS now offers cloud hosting for your Route Manager! Instead of dealing with in-house servers, your data resides safely within a secured data center where you can access it 24 hours a day. Using ultra-fast communication networks and powerful servers, you will be amazed at how productive you can be. Whether you are in the office or on the road, you will get consistent performance, unparalleled access and data security just like the “big companies.”

BUILT TO GROW WITH YOUR BUSINESS

Mango Cloud is designed to be a flexible and affordable solution, regardless of your company size. Whether you're a one-man operation, or manage a team, the Mango Cloud can be adapted to your changing business needs. With the click of a button, you can make adjustments to meet your immediate requirements for space, processing power, or users.

- **Access Your Data from Anywhere** – No matter where you are, your important business files are always available at your fingertips. The communication speed of the servers makes for fast file transfers and immediate access to your programs.
- **Expand Storage as Your Needs Change** – With the click of a button, you can add hard drive storage, more memory, and even more user licenses.
- **Choose Which Data and Programs to Access** – As your own dedicated server, you can add whichever programs you want to your personal cloud, including word processing, spreadsheets, and more.

WHY DO I NEED IT?

Mango Cloud eliminates the costs and technical issues involved in installing your own servers, and gives you a powerful and flexible connection to your files for just a small monthly fee.
