

MANGO  SUPERVISOR<sup>2</sup>

## REAL-TIME ROUTE ACTIVITY - FROM ANY DEVICE, ANY WHERE!

As a field manager, you are always on the go. Helping a new driver, dealing with a broken truck, or calling a new customer – you're anywhere except in front of a computer to see how your routes are doing. Mango Supervisor is a powerful software tool that lets you easily monitor route activity throughout the day to better manage your operations – all from your smartphone.

### MONITOR YOUR ROUTE ACTIVITY, NO MATTER WHERE YOU ARE

- Monitor truck sales activity
- See where your truck is, and who is done and back at the warehouse
- See which customers have been serviced and who has been skipped today
- Track field sales activity throughout the day, such as who bought and amount paid
- View scheduled and completed stops on a map
- Move orders and stops to a different route to increase efficiency
- Create orders as they come in, with access to your full product catalog
- Give out release codes
- See what stock is still remaining in which truck
- And much more

### YOUR KEY BUSINESS DETAILS, AVAILABLE AT-A-GLANCE

View route activity as it occurs throughout the day. Using a GPRS or Wi-Fi data connection, the Android handheld on which Mango Supervisor is installed will be able to communicate with the Route Manager server to monitor your route activity continuously.

- **MODE 1: Real-time Activity** – If you have RMLive, you can see activity as it happens throughout the day. As a driver completes a stop, it will immediately show up on your mobile device.
- **MODE 2: End-of-Day Reports** – End-of-day reports enable you to see route totals as each route driver completes their day and uploads their data to your server. The data does not need to be posted – just transferred to the server (desktop).

Get a complete overview of your operations to help run your business more efficiently:

- ✔ Monitor truck activity
- ✔ Track field sales
- ✔ View release codes
- ✔ Create orders via the web portal from RMA for your team
- ✔ View schedules and completed sales/stops
- ✔ Email and SMS drivers
- ✔ And more

Available on all web-enabled mobile devices

# MANGO SUPERVISOR GIVES YOU THE OVERVIEW YOU NEED TO EFFICIENTLY MONITOR YOUR ROUTES EACH DAY

## ROUTE SUMMARY

The Route Summary screen displays route activity for any given date, along with the total sales for the route up to that point. All scheduled and completed stops are shown, including skipped customers and off-route activity.

## ROUTE DETAILS

Tap a route on the summary screen to instantly pull up more details about each planned or completed route.

## CUSTOMER-SPECIFIC DETAILS

Tap a stop on the route detail screen to see the activity for an individual stop. You can see products purchased, payments made, and other invoice-specific data.
